THE BOTTOM LINE

Ian's Denver is a triple bottom line company. That means we show up every day to take care of three things: People, Planet, and Profit.

We support our people with continued professional development, fully-paid healthcare, paid vacation, and 401k matching. By using compostable or recycled materials, minimizing waste, and sourcing products as locally as possible, we lighten our impact on the environment. Lastly, we exchange pizza for money and keep any cash left over, but you already knew that.

NOW ABOUT THE FOOD...

We make our dough daily and our salad dressings are prepped in-house, as are many of the ingredients on our salad bar and on our pizza. Whenever possible, we strive to purchase our food locally (within a 200 mile radius) and then regionally (within a 500 mile radius). By purchasing our food locally, we are supporting our environment, our health, and our economy.

LOCAL PROVIDERS

 Polidori Sausage, Tender Belly Meats, Red Bird Chicken, Udi's Gluten-Free, Savory Spice Shop.
Check the "What's Local" board in the front of our store for our newest local partners.

We are constantly looking for ways to improve our food, our service, and our commitment to the communities we are in. If you have any suggestions or feedback, we'd love to hear from you! After all, we're not just in the pizza business — we're in the people business.

This menu was created using 100% green energy on chlorine-free, 100% post-consumer fiber
